FullStack Developer

Professional Experience

Programa TrainIT

Project Manager

Volunteer in the TrainIT program as a Project Manager. TrainIT is a free educational program and job simulation community, which offers experience through participation in non-profit multidisciplinary MVPs, accompanied by seniors in different work niches. The goal is for participants to expand their portfolios and improve their professional profile vis-à-vis active companies in the market.

September 2024 – Present

Website for a Chemistry

Freelance

I designed and developed a website for a chemical company.

- Design of the sketch made in Figma.
- Connection to the database to obtain products.
- Management and control of the hosting.
- Corporate emails and shipments through the website.
- Web positioning and optimization for SEO

Mar del Plata, Buenos Aires, Argentina

January 2024 – May 2024

chemval.com.ar

Hairdresser's shift management software

Freelance

I designed and developed a software to manage the shifts of a home-based hairdresser.

- Sketch design made in Figma.
- Entity relationship diagram design and database creation in MySQL.
- System made with Next.js.
- Notification system for shift updates.
- Administrative panel and user authentication.
